

George Chamberlain

Global Aquaculture Alliance United States

Dr. George Chamberlain has been GAA's president since its inception in 1997.

The aquaculture consultant has broad experience across the farmed seafood value chain.

In 2004, Chamberlain helped establish Integrated Aquaculture International, which owns and manages shrimp-breeding, nutrition and production facilities in Asia and the Americas.

He also assisted in developing the Black Tiger Aquaculture integrated shrimp farm in Malaysia.

Early Mortality Syndrome of Shrimp in SE Asia

George Chamberlain

Early Mortality Syndrome

- Affects shrimp in first 10-40 days after stocking
- Mortality rate: 40-90%
- Affects white shrimp (*L. vannamei*) and black tiger shrimp (*P. monodon*)
- Survivors display slow growth

Spread of EMS/AHPNS in East and SE Asia
