

Leela Palace
October 21-24, 2019

WHY GOAL?

Aquaculture is a rapidly growing sector where change is fast and often disruptive. The annual GOAL conference keeps you ahead of the curve. Join other forward-thinking leaders from across the global aquaculture value chain in reviewing production, sustainability, innovation and market drivers. You'll come away with valuable knowledge, strategic relationships and an understanding of emerging issues and solutions.

JOIN US

Learn from and network with 60-plus speakers providing insight on the trends shaping the future of responsible aquaculture, while walking away with exclusive aquaculture production data and analysis on all major farmed seafood species to refer to year-round.

CHENNAI, INDIA

This is the first time that GOAL will be held in India in its 19-year history. This is also the 20th installment of GOAL as well as the 10th time that GOAL has been held in Asia. Don't miss it!
